

Not in Network?

Just because Dr. Loftus is out of network doesn't mean he can't be your doctor.

You may have out of network benefits that will cover a portion of your visit. Also, to ease the financial burden of being an out of network patient, we give a 15% same day payment discount for the portion of your anticipated bill.

Only Dr. Loftus' physician visit is out of network. The following is typically referred to an in-network provider:

- Imaging such as MRI or CT
- EEG
- Labs and Bloodwork *

** As a convenience we can draw your bloodwork in our office and send it to your in-network laboratory for a fee or you may go to an in-network draw station.*

We cannot determine your exact financial obligation because it is commonly not possible to know the precise amount your insurance is going to pay. When we receive remittance from your insurance you may still owe a small portion. We will extend the 15% same day payment discount to any remaining balances if we have a valid credit card on file. If you wish to take advantage of this savings please fill out the form below and return it to the front desk.
